

OPENDOMINO

AWP

GDK PLATFORM

OPENDOMINO

www.open-domino.com

OPENDOMINO is the **safe, reliable** and **compliance ready** open AWP / VLT software platform.

Extremely simple to use, it is the ideal solution for all game manufacturers. The only commitment is game development: OPENDOMINO will take care about everything else!

Based on PSM TECH **G640s** board, it involves a native SDK

(Software Development Kit) available under license to all operators interested in the implementation or porting of game software on PSM TECH hardware.

OPENDOMINO is the ideal solution for **fabless software houses** and for those who want the **scalability** and **quality** of an industrial production.
